PROFESSIONAL SUMMARY

.NET Developer with **1.5 years of progressive experience** at Sirat International, growing from Web Designer to Full-Stack Engineer to .NET Developer. Builds secure, scalable web apps and REST APIs with **C#, ASP.NET Core 8, SQL Server, PHP/Laravel and Python**, and has shipped AI-powered products such as **SonicSentinel AI (93.4% accuracy)**. **1st Place, Database Designer of the Year (Tech Olympics 2026)** and Aptech **Project of the Month** winner.

WORK EXPERIENCE

.NET Developer | Sirat International *Apr 2026 – Present*

- Architect enterprise web applications and **REST APIs** with **C#, ASP.NET Core 8 MVC**, optimizing backend workflows and **SQL Server** database scalability.
- Deploy and maintain production applications on **Microsoft Azure**, with responsive Tailwind CSS front ends.

Full-Stack Engineer | Sirat International *Oct 2025 – Apr 2026*

- Engineered full-stack web applications, **RESTful APIs** and relational databases for an international education portal using **PHP, Laravel, MySQL and Git**.

Web Designer | Sirat International *Apr 2025 – Oct 2025*

- Designed responsive, accessible, **mobile-first** interfaces and optimized cross-browser performance using HTML5, CSS3, Bootstrap, Tailwind CSS and JavaScript.

Security & Arch.	ASP.NET Identity, JWT, RBAC, CSRF Protection, OOP, MVC, Clean Architecture, Repository Pattern, Dependency Injection
DevOps & Tools	Git/GitHub, Docker, CI/CD Pipelines, Microsoft Azure, Railway, Visual Studio, pytest, Figma
Soft Skills	Team Collaboration, Problem Solving, Fast Learning, Delivering Under Tight Deadlines

KEY PROJECTS

SONICSENTINEL AI – Real-Time Acoustic Threat Detection *Team Project • Sep 2026*

AI & Full-Stack Developer, built in a 5-day sprint | Live Demo ↗

- Built a **dual-model AI system** that detects 10 sound classes (gunshots, screams, breaking glass, calls for help) from live microphone audio: an **XGBoost** model on 299 acoustic features plus an in-browser **TensorFlow.js** model, reaching **93.4% accuracy and 0.99 gunshot recall**.
- Developed the **Flask** backend with 5-role RBAC, CSRF protection, a review queue and audit trail. Added 66 pytest tests, containerized with **Docker** and deployed on Railway.

REALTOR'S PORTAL – Real-Estate Marketplace *Project of the Month*

Lead Full-Stack Engineer | Live Demo ↗

- Built with **ASP.NET Core 8 MVC**, **Clean Architecture**, **EF Core (Code-First)** and SQL Server. Secured with **Identity, JWT and RBAC**, with background email services (IHostedService) and REST APIs.
